### **Enbridge Gas teams up with Plympton-Wyoming Fire Department to Reduce Fire and Carbon Monoxide Deaths through Safe Community Project Zero**

**Wyoming, ON, November 7, 2024** – Today, Enbridge Gas Inc. (Enbridge Gas) and Plympton-Wyoming Fire Department announced they are working together to improve home safety and bring fire and carbon monoxide-related deaths down to zero.

The Plympton-Wyoming Fire Department received 126 combination smoke and carbon monoxide alarms through Safe Community Project Zero—a public education campaign with the Fire Marshal's Public Fire Safety Council (FMPFSC) that will provide more than 14,500 alarms to residents in 75 communities across Ontario.

This year, Enbridge Gas invested \$450,000 in Safe Community Project Zero, and over the past 16 years, the program has provided more than 101,000 alarms to Ontario fire departments.

When properly installed and maintained, combination smoke and carbon monoxide alarms help provide the early warning to safely escape from a house fire or carbon monoxide exposure. Carbon monoxide is a toxic, odourless gas that is a by-product of incomplete combustion of many types of common fuels.

“The best way to reduce potential exposure to carbon monoxide is to properly maintain fuel-burning equipment,” says Robin Ellwood, Sarnia Supervisor Operations, Enbridge Gas. “These alarms are a critical second line of defense against carbon monoxide poisoning, known as ‘the silent killer’. We’re proud to support our communities, and raise awareness and help Ontarians implement these protection strategies.”

“Across Ontario there is a renewed focus on the importance of having working smoke and carbon monoxide alarms in your home. The objective of Safe Community Project Zero is to deliver these alarms to areas where they are needed most,” says Jon Pegg, Ontario Fire Marshal and Chair of the FMPFSC. “It’s a program that helps fire departments educate their communities about the requirements to have working smoke alarms installed in all Ontario homes and for all Ontario homes to have a carbon monoxide alarm if they have a fuel-burning appliance or an attached garage.”

“We are very grateful to the Fire Marshal's Public Fire Safety Council and Enbridge Gas for selecting us for this project. The residents of Plympton-Wyoming will benefit greatly from this donation and the program helps us bring awareness to the community about the benefit of having working smoke and carbon monoxide alarms. Working alarms save lives!” says William Davidson, Acting Fire Chief.

**About the Plympton-Wyoming Fire Department**

The Town of Plympton-Wyoming has a team of sixty (60) firefighters that work out of two (2) stations: Camlachie and Wyoming. There are three (3) foundations upon which the departments focus to meet the ongoing needs of the Town: Prevention, Education, and Emergency Response.

**About the FMPFSC**

The FMPFSC was established in 1993 with a mission to help create “a world where no one is hurt by fire.” Chaired by the Ontario Fire Marshal, the FMPFSC promotes fire prevention and public education through sponsorships and partnerships with various groups and individuals with an interest in public safety. Follow the FMPFSC on Twitter @FMPFSC.

**About Enbridge Gas**

Enbridge Gas is Canada's largest natural gas storage, transmission and distribution company based in Ontario, with 2023 marking its 175<sup>th</sup> anniversary of serving customers. The distribution business provides safe, affordable, reliable energy to about 3.9 million customers and is innovating to contribute to a lower-carbon energy future. The storage and transmission business offers a variety of storage and transportation services to customers at the Dawn Hub, the largest integrated underground storage facility in Canada and one of the largest in North America. Enbridge Gas is owned by Enbridge (ENB), a Canadian-based leader in energy transportation and distribution. Visit [enbridgegas.com](http://enbridgegas.com) to learn more.
