Other Fees:

St. Clair Region Conservation Authority Planning and Regulation Fees are available on their website www.scrca.on.ca or by calling 519-245-3710 These fees are payable directly to the Conservation Authority and may be done over the telephone with a credit card. The Planning Department will require comments from the SCRCA for any development proposed within lands affected by Ontario Regulation 171/06. The SCRCA mapping can be used to determine if your property is affected by this regulation, https://maps2.camaps.ca/GVH/index.html?viewer=SCRCA Public.SCRCA

\$100.00 - County of Lambton - If septic evaluation is required, payable to 'The County of Lambton'

\$50.00 - Minimum Distance Separation (MDS Review Fee) - if applicable

\$110.00 – recirculation fee (if required) – If the application requires a recirculation, due to the actions of the applicant, the recirculation fee must be paid before the Planning Department will recirculate the application. If the applicant is absent for the scheduled hearing of their application, the application will be deferred and the recirculation fee must be paid before the application will be brought forth to a future meeting.

Pre-Consultation Meeting:

It is recommended that the applicant attend a pre-consultation meeting prior to submission of the application. In preparation for the pre-consultation meeting please submit a Concept Plan & Layout for the site at least two weeks in advance of the scheduled meeting date. Following the pre-consultation meeting any additional information required for the application submission will be communicated to the applicant.

Application Forms:

A complete sketch of the property must accompany the application showing accurate dimensions and buildings.

The proposed zoning should be detailed so an appropriate zone can be established.

Justification for the change should accompany the application.

Council is the approval authority to approve or deny the application. If adopted, it is forwarded to the County for approval.

Measurements must be provided in Metric Units.

Applicant is responsible for gathering required information/data for Minimum Distance Separation (MDS) formulae.

Notification:

Notice is sent to all property owners within 120m of property line and appropriate agencies (sent 20 days prior to the meeting). Notice is also posted on site.

Public Meeting:

A statutory public meeting must be held where a Town Planner will provide Council with the purpose and the reasons for the by-law amendment. The Applicant is also given an opportunity to make a presentation.

Appeal Period:

The County of Lambton will indicate the final day for appeal. Any formal appeals must be filed with the Ontario Land Tribunal (OLT). All appeals are subject to an OLT Appeal Administration Fee of \$300.00 due payable to the Town of Plympton-Wyoming, this fee is to be paid by the appellant.

Finalization:

Once the County of Lambton approval is received and the appeal period is complete without any objections, the amendment becomes effective. Additional Permits may be required as part of the Official Plan Amendment Process.

There are no guarantees of approval for any application submitted to the Town of Plympton-Wyoming. No refunds will be issued in the event the application is denied by the Council of the Town of Plympton-Wyoming.

RECOMMENDATIONS TO APPLICANTS FOR OFFICIAL PLAN AMENDMENTS

When you apply for an official plan amendment, you are required to submit information which is prescribed by Provincial Regulation as well as other additional information which the municipality required regarding the amendment. The more information provided, the less likely delays will occur in the review. An Official Plan Amendment must be based on proper planning principles. It is Recommended that an applicant:

- i. Examine all pertinent planning documents. The proposed amendment must be consistent with the general goals, objectives and development policies of the municipal official plan. The amendment must also have regard to the Provincial Planning Statement issued under the *Planning Act*. The County of Lambton Official Plan places the Provincial Planning Statement into the regional context of Lambton County. An amendment to a municipal official plan must conform to the County Official Plan.
- ii. Examine surrounding land uses. The proposed development must fit into the surrounding community. Show the options required to mitigate any adverse impact on surrounding land uses (if any).
- iii. Examine the capacity of municipal services to accommodate the proposal (existing water, sewage, storm drainage and roads). The proposed density of development must be supported by information about servicing. Contact the municipality or the relevant road authority.
- iv. At least one public meeting will be held and adequate information must be made available to the public in advance of the public meeting.

The *Planning Act* contains time-lines regarding the processing of this application. These time-lines are based on the date on which the **complete** application was received.

ASSESSMENT OF REQUIREMENT TO SUBMIT AN APPLICATION UNDER PART 8 OF THE ONTARIO BUILDING CODE

The following circumstances dictate when an upgrade or replacement of an existing sewage system is necessary. An application for a sewage permit is required when:

- 1. The performance level of the existing building is reduced. The Ontario Building Code states that the performance level of a dwelling is reduced where the total daily design sanitary sewage flow of the dwelling exceeds the capacity of any component of the sewage system. The capacity of the sewage system must be evaluated when the construction:
 - increases the number of bedrooms in the existing home;
 - exceeds 15% of the gross area of the dwelling unit or;
 - adds new plumbing fixtures to the existing home.
- 2. The proposed structure will decrease the separation distance to the existing sewage system.
- 3. The sewage system is malfunctioning or is discharging sewage onto the ground or into surface water (e.g. Septic connections to agricultural field tiles and drainage ditches are not permitted).
- 4. The owner/agent is unable to answer either question 1, 2 or 3.

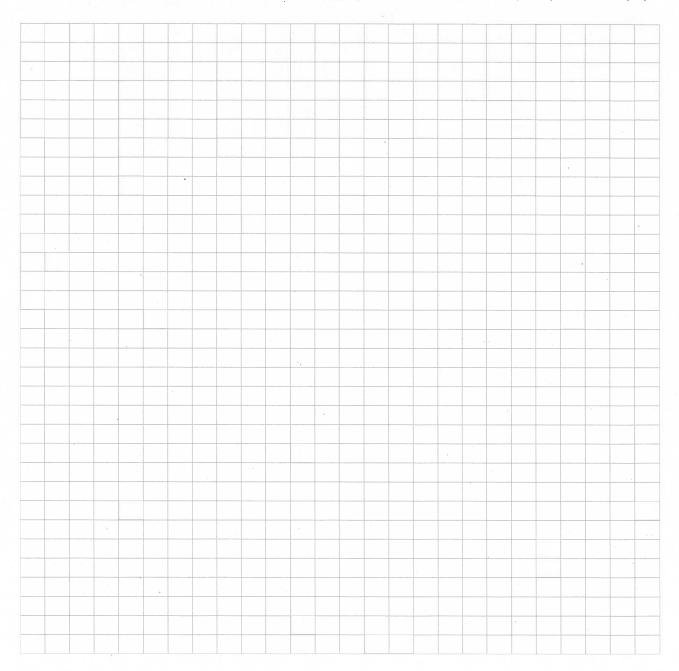

On the attached graph paper, please provide a sketch of the subject property showing lot dimensions, the location(s) of all buildings and structure and the location of the septic tank and leaching (show as much detail regarding the bed as possible - i.e. number of distribution pipes, length of tiles et cetera). If the size of the lot makes it impractical to show the entire property, focus on the area where the sewage system and dwelling are (to be) located.

This office will conduct an inspection of the subject property. An inspection/administrative fee of \$100.00 is therefore required of the applicant to cover the cost of the septic system evaluation/inspection. If it is necessary to make application for septic approval to replace or upgrade the existing sewage system, the evaluation fee will be applied to the cost of the septic permit.

LOT DIAGRAM AND SEWAGE SYSTEM PLAN: Draw to scale and indicate the direction of north.

SHOW: 1) Location of sewage system components (i.e. tanks, leaching beds)

- 2) Horizontal distances from system to adjacent existing or proposed buildings, well water supplies (including neighbours'), existing on-site sewage systems, driveways, property lines, swimming pools and watercourses (including ditches).
- 3) Lot dimensions, roads and topographic features (i.e. steep slopes, swamps)
