General Waiver *

By checking the box below I authorize the Town of Plympton-Wyoming to provide such medical care to the person(s) enrolled in this program, as it may be necessary in the event of injury or otherwise, and all expenses incurred. In part consideration of the Town of Plympton-Wyoming permitting me as the guardian or the person(s) that I am enrolling in this program to participate in its activities, I agree to release and discharge and to indemnify and save the harmless Town of Plympton- Wyoming and the Town of Plympton-Wyoming Parks and Recreation Committee from and against all claims or proceedings, by whomsoever made or brought, in respect of any costs, losses, damage or injury arising by reason of my/their participation in such activities, or by reason of the provision of medical care to me/them.

☐ Yes, I agree to the general waiver

Refund Policy *

By checking the box below I agree to the refund policy and I understand that aquatics programs run rain or shine and the pool and lesson schedule are final, no changes or expectations will be made. By checking the box below I understand that no refunds will be made and that if extenuating circumstances occur, this may be reconsidered at the discretion of the Head Lifeguard and/or the Town of Plympton-Wyoming.

☐ Yes, I agree to the refund policy

Weather Policy *

All aquatics programs will run as scheduled rain or shine. Lessons will only be cancelled in cases of extreme weather situations such as thunderstorms. At the first sign of thunder, anyone in and around the pool must exit and clear the pool deck. Aquatic programs cannot continue until the weather has been clear for at least 30 minutes, therefore your child's lessons may be cancelled for the day. In some situations parents may be notified if the bad weather is predicted to persist all day and if programs have been completely cancelled. If you do not hear anything from the pool staff, please continue as normal and show up to your aquatic program. At any time weather conditions may change and therefore, the Head Lifeguards will make a decision to cancel or continue aquatic programs in a manner that will ensure the safety of everyone.

Lifesaving Society's Statement of Position:

Procedure to follow then there is an electric storm near an outdoor swimming facility, such as a pool, a wading pool, a waterfront or an aquatic park.

1. When you hear thunder, immediately evacuate the outdoor aquatic facility, including the bathing area, the deck or the waterfront. Ask the patrons to go to a safe shelter which has been determined by the owner or operator of the facility.

2. If there is no shelter on the premises, close the aquatic facility and conduct the patrons to a safe shelter such as their cars.

3. The pool staff and the patrons must stay away from objects that are conductors of electricity such as the reaching poles, umbrellas, and metallic fences.

4. After evacuation, the staff must ensure the pool or the body of water is not accessible.

5. The patrons will be allowed to go back in the water 30 minutes after the last sound of thunder.

Basic Data & Justification:

In Canada, lightning may cause the death of up to 10 people per year. Following recommendations, the Lifesaving Society established guidelines for aquatic facilities.

*Private Lesson Note:

Lessons will not be made up due to inclement weather or if the Head Lifeguard and/or Town of Plympton-Wyoming determines that it is unsafe to proceed. By checking the box below I agree to the weather policy and understand that no refunds will be made at the discretion of the Head Lifeguard and/or Town of Plympton-Wyoming.

Read and agree to the waivers and policies on our questionnaires
